

MANNEM NANDINI

Computer Science (AI & ML) Undergraduate | AI & Data Science Enthusiast
Hyderabad, Telangana, [India](#) | mn240701@gmail.com | github.com/nandini632

Objective

Aspiring researcher with interest in machine learning, healthcare, and data-driven technologies, recognizing the critical role of data in future innovation and decision-making. Enthusiastic about exploring real-world problems, analyzing them thoughtfully, and developing practical technology-based solutions.

Areas of Interest

- Full Stack Web Development
- Databases and Data Management Systems
- Machine Learning and AI in Healthcare
- Data-Driven Problem Solving

Skills

- **Programming Languages:** C, Java, Python
- **Web Technologies:** HTML/CSS, React (basic), Flask, REST APIs
- **Data Science Libraries:** NumPy, Pandas, Seaborn, Matplotlib
- **Databases:** MySQL
- **Core Concepts:** Data Structures & Algorithms (problem solving basic)

Education

- **Bachelor of Technology in Computer Science Engineering (AI & ML)**-(2023 – Present)
Geethanjali College of Engineering and Technology
CGPA (first 5 semesters): 8.66 / 10
- **Intermediate Education** – (2021 – 2023)
Sri Chaitanya Junior Kalasala College
Major: Mathematics, Physics, Chemistry
Percentage: 95.5%
- **Secondary School Certificate (SSC)** - 2021
Sai Siddhartha High School
CGPA: 10

Internship

Project Intern — National Small Industries Corporation.(NSIC) Apr 2025 – May 2025

- Built an AI-based PDF Q&A chatbot using LangChain for efficient document understanding.
- Implemented HuggingFace embeddings to enable accurate offline semantic search.
- Developed a clean interface for extracting and interacting with PDF data.
- Improved response quality by optimizing for concise, context-aware answers.

Projects

- **AI Powered TIC-TAC TOE Game – Java**

Built an AI-powered Tic Tac Toe game using the Minimax algorithm for intelligent and optimal gameplay.

- **Neuro Symbolic AI**

Developed a Neuro-Symbolic AI system to predict diseases from symptoms.

Implemented explainable outputs with severity classification (Mild, Moderate, Severe).
